

# BRICK BUDDIES

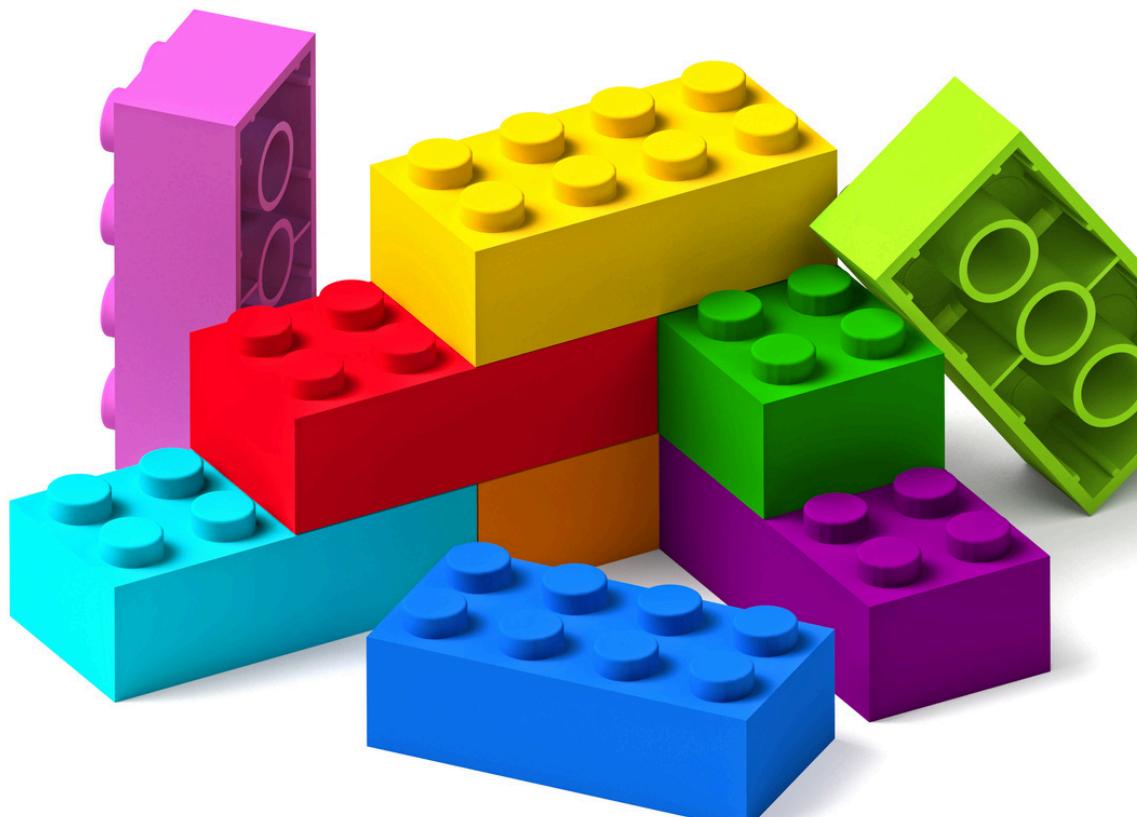

**JOIN US IN TERM 1 2026!**

Join us for a fun and creative LEGO therapy group during Term 1! Children will work together to build, design, and imagine as they take on exciting LEGO challenges. Through guided play and collaboration, they'll develop important social skills such as teamwork, communication, problem-solving, and flexible thinking — all while having a great time!

This program encourages children to express their ideas, build confidence, and make new friends in a supportive and playful environment.

## BENEFITS OF LEGO PLAY THERAPY

- Promotes critical thinking, problem solving and collaboration
- Improves and promotes social communication & interaction.
- Builds and helps to maintain friendships.
- Improves confidence and emotional wellbeing in the participant.
